WELCOME

TANYA PLIBERSEK

This Information Kit will give you (or an older person you care for) a range of useful information about the latest pension payment rates, services, and other useful help.

Costs of living soared under the previous Morrison Government and too many older Australians are struggling to get by.

The Albanese Labor Government is committed to helping older Australians keep more money in their pockets and lowering their costs of living. **From 1 July, our \$300 rebate for every household for electricity bills in the coming year will make a big difference.**

More older Australians have also been given access to the Commonwealth Seniors Health Card and cheaper medicines, and we've committed to more affordable housing.

We've also begun our reform of aged care, to make sure older Australians are treated with the respect they deserve.

Please do not hesitate to call my office on 02 9379 0700 if I can be of any assistance.

Yours sincerely

A handwritten signature in black ink that reads "Tanya".

The Hon Tanya Plibersek MP

MINISTER FOR THE ENVIRONMENT AND WATER
MEMBER FOR SYDNEY

INTRODUCTION

AMANDA RISHWORTH MP

MINISTER FOR SOCIAL SERVICES

The Albanese Government is proud to continue the strong Labor tradition of support for older Australians.

We are protecting the pension, improving aged care and strengthening Medicare.

Since we were elected in May 2022, we have delivered a suite of measures to provide more support for older Australians.

Through our comprehensive cost of living plan, the Government is providing responsible relief to ease cost of living pressures and reduce inflation.

This includes a tax cut for all Australian taxpayers. On average, taxpayers over the age of 65 are getting a tax cut of \$1719 in 2024-25.

We have also increased the Medicare levy low-income thresholds which ensures that low-income seniors, pensioners and other individuals continue to be exempt from paying the Medicare levy or pay a reduced levy rate.

We're providing all Australian households help with their energy bills and we're keeping PBS medicines cheaper. For pensioners and other concession cardholders, we've frozen the maximum copayment at \$7.70 per script until 2029.

This includes the 33,000 extra self-funded retirees who have been able to access the Commonwealth Seniors Health Card as a result of Labor's changes to increase the income limit thresholds for the card.

In September 2024, the income thresholds for access to the card were further increased as a result of indexation to \$99,025 a year for singles and \$158,440 a year for couples. If you think you may now be eligible, I urge you to apply.

We've also maintained the freeze on social security deeming rates until 30 June 2025, enabling partpensioners and other income support recipients to earn more on their investments before their pension is affected.

And we've delivered back-to-back increases to the maximum rates of Commonwealth Rent Assistance.

Combined with indexation, this means rates have increase by 45 per cent since Labor was elected.

We're delivering more funding to grow the number of Medicare Urgent Care clinics to 87, to deliver high-quality, bulk-billed care to more local communities.

And we've announced historic aged care reforms, to ensure the viability and quality of aged care, and support growing numbers of older Australians choosing to retain their independence and remain in their homes as they age.

Older Australians helped build this country, and Labor believes that older Australians deserve a fulfilling and secure retirement.

This Seniors Kit sets out ways we are supporting our 4.2 million older Australians. You'll find lots of information about services, general safety tips and ways to keep hold of more of your money, as well as the latest pension payment rates.

I hope you find it a valuable resource.

A handwritten signature in black ink that reads "Amanda Rishworth". The signature is fluid and cursive, with a large loop at the end.

The Hon Amanda Rishworth MP
MINISTER FOR SOCIAL SERVICES

GOVERNMENT SERVICES

Health Care

If you think you need an ambulance or your injury or illness is critical or life threatening, **call triple zero (000)** for an ambulance immediately.

For health advice, call the healthdirect helpline on 1800 022 222.

Registered nurses are available 24 hours a day, 7 days a week to provide advice when you're not sure what to do – whether you should see a local GP, manage the condition at home, or go to an emergency department.

For urgent but not life-threatening illnesses and injuries, our network of Medicare Urgent Care Clinics are available for extended hours, every day. To find your nearest Clinic, head to:

health.gov.au/find-amedicare-ucc

Australian Financial Complaints Authority

afca.org.au 1800 931 678

The Australian Financial Complaints Authority (AFCA) combines and succeeds the older Financial Ombudsman Service Australia, the Superannuation Complaints Tribunal and the Credit Ombudsman Service.

AFCA aims to provide consumers and small businesses with fair, free and independent dispute resolution for most financial complaints. Including credit, finance and loans, insurance, banking deposits and payments, investments and financial advice and superannuation.

Australian Tax Office

ato.gov.au 13 28 65

The ATO can assist with your taxation enquiries. This may include lodging your annual tax return, locating and using your Tax File Number, or assistance looking for lost superannuation.

Many Australians have been victims of fraud schemes that appear to be from the ATO.

If you are in doubt about contact from someone claiming to be from the ATO, you can phone the ATO on **1800 008 540**, 8.00am–6.00pm Monday to Friday to check.

Carer Gateway

**carergateway.gov.au
1800 422 737**

If you care for a family member or friend with disability, a medical condition, mental illness, or who is frail due to age, then Carer Gateway can help you.

Through Carer Gateway, the Australian Government works with service providers across Australia to deliver services and supports no matter where you are.

Contact Carer Gateway for more about the supports and services available to carers.

Medicare

servicesaustralia.gov.au/individuals/medicare 13 20 11

Medicare and its related programs provide Australians with access to a range of health services. Additional programs are available to families, Indigenous Australians, older Australians and people living in remote areas.

Visit the website, call the phone number above or visit a Medicare office to find out what is covered by Medicare, or to claim a Medicare benefit.

Medical Costs Finder

medicalcostsfinder.health.gov.au

The Medical Costs Finder helps patients find the typical cost of specialist medical services. It covers common services in and out of hospital.

Health Care Complaints

To make a complaint about a health provider or service, contact the Health Complaints Commission in your state or territory:

ACT	(02) 6205 2222
New South Wales	1800 043 159
Northern Territory	1800 004 474
Queensland	133 646
South Australia	1800 232 007
Tasmania	1800 001 170
Victoria	1300 582 113
Western Australia	1800 813 583

Financial Information Service/Officers

servicesaustralia.gov.au/financial-information-service-officers

The Financial Information Service helps you make informed decisions about your finances. Financial Information Service Officers can help you plan for your future financial needs.

How a FIS Officer can help:

- make informed financial decisions
- understand the results of your decisions in the short and long term
- prepare for retirement, even while you're still working
- take control of your finances to increase lifestyle choices.

What a FIS Officer can't do:

- sell or give advice
- prepare financial plans or tax returns
- recommend investments
- tell you how to invest your money
- buy investment products
- make decisions about your pension
- recommend financial advisers

How to contact?

If you get a payment from us, you can call us on the same number you use to call Centrelink. If you don't get a payment from us, you can call us on the Centrelink Older Australians line. Say 'Financial Information Service' when asked why you're calling.

Please note: You can bring someone with you when you visit us. You can also arrange for someone else to speak to us for you. You must give them authority to do this. If you're a member of a community group you may be able to have a FIS Officer visit to speak to your group.

My Aged Care

MyAgedCare.gov.au
1800 200 422

My Aged Care is the starting point to help you find out what Australian Government-funded aged care services may be available to help you.

You can visit any Services Australia service centre for general My Aged Care support or book an appointment with an Aged Care Specialist Officer in selected locations by calling **1800 227 475**.

You can access My Aged Care online, on the phone or in person.

My Aged Care can provide:

- information on the different types of aged care services available
- an assessment of needs to identify eligibility and the right type of care
- referrals and support to find service providers that can meet your needs
- information on what you might need to pay towards the cost of your care.

For more information about My Aged Care turn to page 30 of this Information Kit.

National Disability Insurance Scheme

ndis.gov.au
1800 800 110

The National Disability Insurance Scheme (NDIS) is Australia's first national scheme for people with disability.

It provides funding directly to individuals. The NDIS aims to support a better life for hundreds of thousands of Australians with a significant and permanent disability and their families and carers.

To find out whether you are eligible for the NDIS, visit the website or call the hotline. People must be under 65 when they first enter the NDIS.

Older Persons Advocacy Network

opan.org.au
1800 700 600

The Older Persons Advocacy Network (OPAN) is a national network comprised of nine State and Territory organisations that deliver advocacy, information and education services to older people across Australia. OPAN is a free service that supports older people and their representatives to address issues related to Commonwealth funded aged care services.

You can contact OPAN by phone Monday to Friday 8am to 8pm and 10am to 4pm on Saturday.

AGE PENSION

The Age Pension is the primary social security payment for people who have reached Age Pension age.

Australia has a non-contributory Age Pension system. This means you are usually eligible if you are:

- Over Age Pension age (67 years, or older).
- An Australian resident (an Australian citizen or permanent visa holder residing in Australia), normally for more than 10 years.
- Under the income and assets test limits.

Current Age Pension rates (as of 20 September 2024):

Per fortnight	Single	Couple (each)	Couple (combined)	Couple apart due to ill health (each)
Maximum basic rate	\$1,047.10	\$789.30	\$1,578.60	\$1,047.10
Maximum Pension Supplement	\$83.20	\$62.70	\$125.40	\$83.20
Energy Supplement	\$14.10	\$10.60	\$21.20	\$14.10
Total	\$1,144.40	\$862.60	\$1,725.20	\$1,144.40

A single pensioner can currently receive a maximum rate of **\$29,754.40 per year**, including supplements. A pensioner couple can currently receive a maximum rate of around **\$44,855.20 per year** combined, including supplements.

Income and Assets Test

To be eligible for the Age Pension you must be under the Income and Assets Test limits.

Both the income and assets test apply to you. Your payment will be determined by whichever of the two tests gives you the lowest Age Pension rate.

You are required to report your income and assets to Services Australia (Centrelink).

You need to report employment income regularly, generally every two weeks, but for other income and assets you need to report when there has been a change in circumstances or when Centrelink asks you to confirm the information they have.

Income Test

The Income Test applies to you and your partner's income.

Income from all sources is assessed, including work, financial assets, savings, and superannuation.

Your income from financial assets is calculated using the deeming rates, not the actual income the assets produce. See the section on deeming rates for more information.

Once you earn more than \$212 per fortnight for a single, or more than \$372 per fortnight for a couple, your pension will start to reduce and you will receive a part-pension.

If you are a single person:

If your Income per fortnight is..	Your Pension will reduce by
Up to \$212	\$0
Over \$212	50 cents for each dollar over \$212

If you are a pensioner couple:

If your Income per fortnight is..	Your Pension will reduce by
Up to \$372	\$0
Over \$372	25 cents for each dollar over \$372

Your income cut off point may be higher if you receive Rent Assistance, or lower if you live overseas. You can also earn additional employment income by using the Work Bonus. See the section on the Work Bonus for more information.

Age Pension cut off points:

Your situation	Income cut off point per fortnight
Single	\$2,500.80
A couple living together	\$3,822.40 combined
A couple living apart due to ill health	\$4,949.60 combined

Deeming Rates

Deeming is used to work out your income from financial investments for social security purposes. This is added to income from other sources to work out your payment rate using the income test.

Deeming assumes that your financial investments earn a certain amount of income, no matter what they really earn.

Financial investments include:

- shares,
- savings accounts and term deposits, superannuation,
- managed investments and loans,
- and some gifts.

If your investments earn more than the deeming rates, the extra amount does not count as your income.

Current Deeming Rates

If you're single – the first \$62,600 of your financial assets is deemed to earn 0.25 per cent. Anything over \$62,600 is deemed to earn 2.25 per cent.

If you're a member of a couple and at least one of you receives a pension – the first \$103,800 of your combined financial assets is deemed to earn 0.25 per cent. Anything over \$103,800 is deemed to earn 2.25 per cent.

If you're a member of a couple and neither of you receive a pension – the first \$51,900 of each of your own and your share of joint financial assets is deemed to earn 0.25 per cent. Anything over \$51,900 is deemed to earn 2.25 per cent.

Work Bonus

Age Pensioners have a \$300 Work Bonus each fortnight.

This means that when your eligible income is \$300 per fortnight or less, it will be reduced to zero for the purposes of the Age Pension income test. Any unused portion of your Work Bonus will accrue each fortnight in an income bank.

You can then draw down on this balance in the fortnights you earn more than \$300.

The maximum amount that can be earned in the income bank is \$11,800. New entrants commenced with a \$4,000 starting balance.

To be eligible for the Work Bonus, the income earned must be from employment, or self-employment that involves active effort e.g. bookkeeping or plumbing. It does not include passive income from investments or the management of investments.

The Work Bonus applies to individuals only. Couples cannot pool the Work Bonus.

You do not apply for the Work Bonus – all you need to do is contact Centrelink and declare your income.

You do not apply for the Work Bonus – all you need to do is contact Centrelink and declare your income.

Assets Test

There are limits to how much your assets can be worth before they affect how much age pension can be paid.

Your principal home – and up to the first 2 hectares of land it is on – is not included in the Assets Test. Assets include:

- Superannuation and managed funds.
- Shares, savings accounts, term deposits, money loaned and financial investments.
- Home contents and personal effects e.g. cars, boats, jewellery, furniture and appliances.
- Real estate.
- Annuities, income streams and superannuation pensions.
- Gifts or assets given away.
- Businesses including sole traders, partnerships, private trusts, and private companies.

For the full pension, assets must be less than:

Your situation	Homeowner	Non-homeowner
Single	\$314,000	\$566,000
Couple combined	\$470,000	\$722,000
Illness separated (couple combined)	\$470,000	\$722,000
A couple, one partner eligible, combined	\$470,000	\$722,000

Assets above this amount reduce your pension by \$3 per fortnight for every additional \$1,000 (singles and couples combined).

For a part pension, assets must be less than:

Your situation	Homeowner	Non-homeowner
Single	\$695,500	\$947,500
Couple combined (including one partner eligible)	\$1,045,500	\$1,297,500
Illness separated, couple combined	\$1,233,000	\$1,485,000
A couple, one partner eligible, combined	\$1,045,500	\$1,297,500

If you get Rent Assistance with your pension, your cut off point is higher.

Age Pension Age

The Age Pension age is 67.

Residency Rules

To get the Age Pension you generally need to have been an Australian resident for at least 10 years. For at least 5 of these years, there must be no break in your residency. There are exemptions to these residency rules, including for people who have lived and worked in some countries Australia has a social security agreement with; some New Zealanders; and refugees and former refugees

Home Equity Access Scheme

The Home Equity Access Scheme allows people of Age Pension age or older who own real estate in Australia to supplement their retirement income by accessing a voluntary, non- taxable loan from the Federal Government. You do not need to be receiving a pension to access the Home Equity Access Scheme, but you must meet additional criteria such as residency.

The loan is secured against real estate, usually your home. You can use other suitable real estate assets. You can repay the loan at any time, but voluntary repayments are not required. The loan will be repaid when you sell the property used to secure the loan, or from your estate.

You and your partner may use the Home Equity Access Scheme to access up to 150 per cent of the maximum fortnightly Age Pension rate.

- If you already receive a pension payment, you can receive a fortnightly loan payment of up to 150 per cent of the maximum Age Pension rate, less any pension payment you already receive.
- For example, if you are a maximum rate pensioner, you can receive an additional 50 per cent of the fortnightly pension rate as a loan. If you are a self-funded retiree, you can receive 150 per cent of the maximum Age Pension rate as a loan.

A no negative equity guarantee means that you won't have to repay more than the market value of the property secured against the loan, minus any other mortgages or legitimate encumbrances.

You can receive payments from the Home Equity Access Scheme on a fortnightly basis. You are also able to access two lump sum advance payments in any 12-month period of up to 50 per cent of the annual maximum rate of the Age Pension.

As at date of publication the interest rate for the Home Equity Access Scheme is 3.95 per cent.

Overseas Travel

The Age Pension can generally be paid while you are overseas, regardless of whether you leave Australia temporarily or permanently.

However, the payment rate may change depending on time spent overseas. For instance, if you are travelling overseas temporarily, the Pension Supplement will reduce to the basic rate after six weeks. If you are moving overseas permanently, the Pension Supplement will reduce to the basic rate on your departure.

If you are overseas for longer than six months and you were an Australian resident for less than 35 years during your working life (age 16 to Age Pension age), your payment rate may be reduced.

Australia has social security agreements with many countries. In some cases, these agreements determine how much pension you will get if you live overseas. If you have lived in both countries, you may receive a part-pension from Australia and from the other country you have lived in.

Before travelling or moving overseas, contact Centrelink to see how it will impact your pension.

Rent Assistance

You may be eligible for Rent Assistance if you pay rent to a landlord or community housing organisation. Rent Assistance may also be available to Age Pensioners who pay fees in a retirement village, board and lodging, or site and mooring fees if your main home is a caravan, relocatable home or a boat.

If you own your own home, or live in state/territory government public housing, you cannot get Rent Assistance.

Current Rent Assistance Rates

Your situation	You are eligible for Rent Assistance if your fortnightly rent is more than	To get the maximum rate of Rent Assistance your rent must be more than	The maximum fortnightly Rent Assistance payment is
Single	\$149.00	\$430.60	\$211.20
Single, Share	\$149.00	\$336.74	\$140.80
Couple, Combined	\$241.40	\$506.74	\$199.00

COMMON QUESTIONS

For the Pension Assets Test, does it matter how much your principal residence is worth?

No. Your principal place of residence is not included in the Age Pension assets test.

On what day is the pension paid?

You can choose what day of the fortnight the pension is paid on. If you would like to set or change your payment day, contact Centrelink.

How often is the pension indexed?

The pension is indexed on 20 March and 20 September each year.

How is pension indexation calculated?

The rate of the Age Pension is indexed by the higher of the Consumer Price Index or the Pensioner and Beneficiary Living Cost Index. The pension is then benchmarked to a per cent of Male Total Average Weekly Earnings (MTAWE).

The single rate is benchmarked to 27.7 per cent of MTAWE and the combined couple rate to 41.76 per cent.

If pension rates are below the relevant per cent of MTAWE, they will be increased to the benchmark.

The Consumer Price Index and Pensioner and Beneficiary Living Cost Index are measures of price changes that impact pensioners. Benchmarking the pension to MTAWE helps keep it in line with community living standards.

Can I apply for the Age Pension if I am living overseas?

You can, if you live in a country with a social security agreement that permits applications for the Age Pension from outside Australia. Otherwise you will need to be a resident of Australia when you apply. This means Australia needs to be your settled or usual place of residence. Contact Centrelink for more advice on your personal situation.

Australia currently has international social security agreements with: Austria, Belgium, Canada, Chile, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Germany, Greece, Hungary, India, Ireland, Italy, Japan, Korea, Latvia, Malta, the Republic of North Macedonia, the Netherlands, New Zealand, Norway, Poland, Portugal, Republic of Serbia, the Slovak Republic, Slovenia, Spain, Switzerland, and the United States of America.

Can Centrelink pay bills on my behalf?

Yes. Centrepay is a free bill paying service operated by Centrelink. You can arrange for Centrepay to automatically pay regular bills like rent, electricity and phone. **Contact Centrelink to set up Centrepay.**

Can I speak to Centrelink in a language other than English?

Yes. Centrelink has a free translation and interpreter service in over 200 languages.

This includes international languages, Auslan and Aboriginal and Torres Strait Islander languages.

The Multilingual Phone Service can be contacted on 13 12 02 - Monday to Friday 8 am to 5 pm.

What if I disagree with a Centrelink decision?

There are things you can do if you think Centrelink has made an incorrect decision about your payment:

1

As a first step you should contact Centrelink. A Centrelink officer will check your details and explain the reason for the decision and clear up any misunderstandings.

This will also provide you with the opportunity to tell Centrelink about any new information which may be helpful.

2

Secondly, you can ask for an Authorised Review Officer to review the decision.

The Authorised Review Officer will not have had any involvement in the original decision. If they think the initial decision was wrong, they can change it.

3

If the Authorised Review Officer has not found in your favour, you can appeal the Centrelink decision to an independent body, the Social Services and Child Support division of the Administrative Appeals Tribunal.

4

An Administrative Appeals Tribunal review can only commence once the Authorised Review Officer has completed their review. The Administrative Appeals Tribunal has the power to change decisions.

5

You can appeal to the Administrative Appeals Tribunal* for a second review.

6

Finally, you can appeal a decision to the Federal Court and then the High Court.

*** Please note** that the Administrative Appeals Tribunal will be abolished and is to be replaced with the Administrative Review Tribunal.

If you are not satisfied with any aspect of the service that Services Australia is providing, you can contact the Commonwealth Ombudsman on 1300 362 072.

CONCESSION CARDS, MEDICARE AND HEALTH

Pensioner Concession Card

If you receive one of the following payments, you will automatically be sent a Pensioner Concession Card:

- Age Pension
- Carer Payment (excluding Carer Payment recipients with either episodic or short term care of the child)
- Parenting Payment – Single
- Disability Support Pension
- JobSeeker Payment or Youth Allowance and are single, principal carers of a dependent child and looking for work

If you are over 55, you can also get a Pensioner Concession Card if you have been on income support for 9 continuous months and are getting one of the following payments: JobSeeker Payment, Parenting Payment partnered, Special Benefit.

You may also get a card if you have a partial capacity to work and you're getting any of the following payments:

- JobSeeker Payment
- Parenting Payment partnered
- Youth Allowance as a job seeker

The Pensioner Concession Card gives you benefits, including:

- Cheaper medicines under the Pharmaceutical Benefits Scheme – at the concessional rate of up to \$7.30 instead of the general rate of \$30.00
- Access to the lower, concessional threshold of the Pharmaceutical Benefits Scheme Safety Net
- Bulk billed doctor visits – depending on your doctor
- Extra refunds for medical costs when you reach the Extended Medicare Safety Net threshold
- Free hearing tests, fully or partially subsidised devices, fittings, annual reviews, and other services through the Hearing Services Program
- Discounts on Australia Post including mail redirections; and
- Other concessions on utility bills, rates, drivers licenses, motor vehicle registration charges, ambulance subscriptions and public transport – depending on your state or territory.

If your pension payment was cancelled on 1 January 2017 because of changes to the assets test you will also receive a Pensioner Concession Card.

Commonwealth Seniors Health Card

The Commonwealth Seniors Health Card (CSHC) is a concession card to get cheaper health care and some discounts if you've reached the Age Pension age.

You can get a card if you meet a number of conditions, including that you are not receiving another payment from Services Australia or the Department of Veterans' Affairs.

On 20 September 2023 the income limits for the CSHC were increased due to annual indexation.

To meet the income test, you must earn no more than the following:

- \$99,025 a year if you're single
- \$158,440 a year for couples
- \$198,050 a year for couples separated by illness, respite care or prison.

Add \$639.60 to these amounts for each child in your care.

To apply or for more information go to: ServicesAustralia.gov.au or call 13 23 00

Concessions for Senior Savers Card Holders

Some businesses offer concessions for common expenses.

To apply or for more information about the NSW Seniors' Card go to: www.seniorscard.nsw.gov.au or call: 13 77 88

The Albanese Labor Government has delivered on its election commitment to significantly increase the CSHC income limits and as a result, as at 31 July 2024, more than 32,000 extra self-funded retirees have been granted the Commonwealth Seniors Health Card who would not have been eligible previously.

Essential Medical Equipment Payment

The Essential Medical Equipment Payment is an annual support payment of \$183 that assists eligible people with the additional home energy costs of operating essential medical equipment or medically necessary heating and cooling.

The payment is available in addition to any other existing state and territory government medical equipment rebate schemes.

To claim, you must have a Commonwealth concession card and the person with medical needs and their carer must live at home together in Australia.

To access this payment, you need to apply to Centrelink. You may be asked to provide evidence of the medical need for equipment and proof that you pay the relevant energy bill.

People with listed medical conditions will be automatically assessed as eligible for the scheme.

Contact Centrelink for more information.

Pharmaceutical Benefits Scheme Safety Net Card

If you spend a lot on medicines you can get a Pharmaceutical Benefits Scheme (PBS) Safety Net Card that will give you access to cheaper medicines.

On January 1, 2024, the PBS Safety Net thresholds were updated to:

- \$277.20 for concession card holders; and
- \$1,647.90 for general patients

Concession Card Holders reach the safety net after 36 fully priced prescriptions and thereafter their PBS scripts are free for the balance of the year (plus any applicable premiums).

Above these thresholds, your PBS Safety Net Card will give you access to cheaper medicines.

Your medicine will:

- **Be free for concession card holders; and**
- **Cost up to \$7.70 for general patients**

To get a PBS Safety Net Card, ask your pharmacist to keep track of you and your family's prescriptions.

When you reach the threshold, your pharmacist can give you a card.

If you do not always use the same pharmacist, you can keep track of your expenditure using PBS/Repatriation PBS Safety Net prescription record form and application for a Safety Net card form (PB240) available from Services Australia.

Private Health Insurance Rebate

If you have private health insurance, you may be eligible for the Private Health Insurance (PHI) Rebate. The Private Health Insurance Rebate is means tested. Your rebate rate also depends on the age of the oldest person covered by the policy.

It provides a rebate for a proportion of your hospital and general treatment (extras) cover. You can claim the rebate as a reduction to your health insurance policy, or as a tax offset in your annual tax return.

Income thresholds from 1 July 2024

Tier	Family and income status	< Age 65	Age 65-69	Age 70+
Base tier	Single \leq \$97,000 Family \leq \$194,000	24.608%	28.710%	32.812%
Tier 1	Single \$97,001 - \$113,000 Family \$194,001 - \$226,000	16.405%	20.507%	24.608%
Tier 2	Single \$113,001 - \$151,000 Family \$226,001 - \$302,000	8.202%	12.303%	16.405%
Tier 3	Single \geq \$151,001 Family \geq \$302,001	0%	0%	0%

Source: https://privatehealth.gov.au/health_insurance/surcharges_incentives/insurance_rebate.htm

Please note: Single parents and couples (including de facto couples) are subject to family tiers. For families with children, the income thresholds are increased by \$1,500 for each child after the first. The PHI Rebate is not provided on the Lifetime Health Cover loading component of a PHI policy.

Medicare Safety Nets thresholds

The Medicare Safety Nets can lower your out of pocket medical costs, including the cost of seeing a doctor or specialist, as well as many tests and scans.

When your out of pocket costs exceed one of the Medicare Safety Net thresholds, you'll start getting higher Medicare benefits.

If you have a Pensioner Concession Card or a Commonwealth Seniors Health Card, you are eligible for the Extended Medicare Safety Net - Concessional.

This means you can get up to 80 per cent of your out of pocket costs back.

You do not need to register for the Medicare Safety Nets as an individual. Your out-of-pocket-costs will be automatically calculated by Medicare and the money you get back from Medicare will be automatically adjusted.

However, if you register as a couple or family, you can combine your costs for the Medicare Safety Nets. This means you will reach the thresholds sooner and receive more back from Medicare. Contact Services Australia to register as a couple or a family.

See the table below for the 2024 thresholds, which can be found on Services Australia's website.

2023 Medicare Safety Nets thresholds:

Thresholds	Threshold amount	Who it's for	What counts towards the threshold	What benefit you'll get back
Original Medicare Safety Net (OMSN)	\$560.40	Everyone in Medicare	Your gap amount for the calendar year.	100% of the schedule fee for out of hospital services.
Extended Medicare Safety Net (EMSN) - General	\$2,544.30	Everyone in Medicare	Your out-of-pocket amount for the calendar year.	80% of out-of-pocket costs or the EMSN benefit caps for out of hospital services.
Extended Medicare Safety Net (EMSN) - Concessional and Family Tax Benefit Part A	\$811.80	Concession cardholders and families eligible for Family Tax Benefit Part A	Your out-of-pocket amount for the calendar year.	80% of out-of-pocket costs or the EMSN benefits caps for out of hospital services.

Source: What are the Medicare Safety Nets thresholds - Medicare Safety Nets - Services Australia

The Medicare Safety Net threshold amounts are indexed to the Consumer Price Index on 1 January each year when patient threshold accumulations are reset.

- The Original Medicare Safety Net (OMSN) increases the 85% Medicare rebate to 100% of the MBS fee for the remainder of the year once the threshold is reached. The current 2024 OMSN threshold for everyone enrolled in Medicare is \$560.40.
- The Extended Medicare Safety Net (EMSN) provides an increase in benefits of up to 80% of out-of-pocket costs once an annual threshold has been reached. All out-of-hospital out-of-pocket costs (the difference between the MBS out-of-hospital rebate and the doctor's charge) contribute to the EMSN. There are two 2023 EMSN thresholds. The EMSN non-concessional threshold is \$2,544.30 and the concessional threshold/Family Tax Benefit Part A threshold is \$811.80.

It is important to note that Medicare safety nets do not apply to in-hospital services, which may be partially or fully covered by private health insurance.

SUPPORT FOR CARERS

Carer Payment

The Carer Payment can help people who are providing constant care to someone who has a severe disability, illness, or an adult who is frail aged.

The Carer Payment is paid to people who, because of the demands of their caring role, are unable to support themselves through paid employment.

The Carer Payment is paid at the same rate as the Age Pension. It is subject to the same income and asset tests at the Age Pension. See the Age Pension section for more information.

Carer Payment recipients are eligible for the Pensioner Concession Card. In order to get the Carer Payment you must be:

- An Australian resident
- Providing constant care for someone who is an Australian resident with an illness or disability likely to last 6 months or more (unless they are terminally ill); and
- The care is provided in the home of the person being cared for.

A 104-week waiting period applies to most new Australian residents before they can receive Carer Payment.

To qualify for Carer Payment, the person receiving care must also pass an income and asset test (if they don't receive a pension or benefit from Services Australia).

Care Receiver's Income and Assets Test

Income Limit	\$135,640
Assets Limit	\$836,750

If the care receiver's assets exceed the assets limit, the carer may still qualify for Carer Payment if the care receiver passes the income test and liquid asset test

Note: the carer must also meet the pension income and assets tests (these are the same as for the Age Pension).

If you are caring for more than one child or an adult and a child, each with disability or a medical condition, this will be taken into account when determining your eligibility.

Contact Centrelink to determine if your caring responsibilities make you eligible for Carer Payment.

You may qualify for a Carers' payment if you are caring for a disabled adult or child.

Carer Allowance

Carer Allowance helps Australian residents (Australian citizens and permanent visa holders residing in Australia) who provide daily care and attention at home to a child (under 16 years) or an adult (16 years and over) with disability or a medical condition, or who is frail aged. A 52-week waiting period applies to most new Australian residents before they can receive Carer Allowance.

The level of care you need to provide in order to receive Carer Allowance is lower than for Carer Payment.

Carer Allowance may be paid in addition to other payments, such as the Age Pension. If you receive Carer Payment for a child younger than 16, you will automatically be entitled to Carer Allowance. Carer Payment recipients caring for an adult can also qualify for Carer Allowance but there are some differences in eligibility criteria.

Carer Allowance is \$153.50 per fortnight. A carer can receive multiple Carer Allowance payments with some limitations. A payment can be made for each child with a disability or illness that meets the eligibility criteria or for up to two adults receiving care.

You do not need to be receiving a social security payment to get Carer Allowance, but an income test of \$250,000 applies to you and your partner. There is no assets test.

You do not need to be receiving a social security payment to get Carer Allowance, but an income test of \$250,000 applies to you and your partner. There is no assets test.

Carer Supplement

Carer Supplement is an annual payment for carers who receive a qualifying payment on 1 July each year.

Eligible payments are:

- Carer Payment
- Carer Allowance
- DVA Carer Service Pension
- DVA Partner Service Pension with Carer Allowance

An additional \$600 is paid if you are receiving Carer Payment or one of the DVA pensions listed above.

You do not need to apply for Carer Supplement. Centrelink will automatically make the payment into your bank account.

The payment is made in July of each year.

Child Disability Assistance Payment

Child Disability Assistance Payment is an annual supplementary payment for people receiving Carer Allowance for children under 16.

A \$1,000 Child Disability Assistance Payment is payable for each eligible child attracting Carer Allowance.

You do not need to apply for Child Disability Assistance Payment. Centrelink will automatically make the payment into your bank account. A letter is sent to those who receive the payment.

The payment is made in July of each year.

Carer Adjustment Payment

The Carer Adjustment Payment is a one-off, ex-gratia lump sum payment of up to \$10,000 that provides assistance to families where a child aged under 7 is diagnosed with a severe disability or severe medical condition, leading to a significant adjustment in care arrangements.

Families can apply following an event where:

- a child aged under 7 is diagnosed with a severe disability or severe medical condition;
- the child needs full time care from the carer for at least two months following the diagnosis;
- the child's carer is receiving Carer Allowance for the child;
- the carer and/or their partner are not eligible for an income support payment; and
- the carer is able to demonstrate a very strong need for financial support during the adjustment period after the diagnosis.

Claims must be submitted within 2 years of the diagnosis.

Claims are assessed on a case-by-case basis and includes an assessment of factors, such as, available funds, income, capacity to work and the costs and nature of the care being provided.

The Carer Adjustment Payment is not means or asset tested however, claimants must provide details and evidence of their circumstances and demonstrate a very strong need for financial support during the adjustment period. The adjustment period is taken to be 12 months from diagnosis.

Depending on the family's circumstances, each eligible child can attract a payment up to the maximum amount.

OTHER SUPPORT FOR CARERS

Support for Carers – Carer Gateway

The Carer Gateway is a single entry-point for carers to access help and advice, including respite.

The Carer Gateway can be found at carergateway.gov.au or contacted on **1800 422 737**.

Whilst changes are being made to improve the interaction between MyAgedCare and the Carer Gateway, at the moment, you will need to contact the Carer Gateway separately to MyAgedCare.

National Dementia Support Program

The National Dementia Support Program aims to help people living with dementia and their carers and families understand more about dementia. It also aims to connect people living with dementia, their families and carers with services that support them to self-manage and live well with dementia for as long as possible.

Find out more by contacting the National Dementia Helpline on **1800 100 500**.

Translating and Interpreting Service (TIS National)

If you are receiving care, you can get immediate phone interpreting through TIS National for the cost of a local call.

Call **131 450, 24 hours a day**, every day of the year or to book an interpreter, visit: tisnational.gov.au

Have your say on how we can continue to improve aged care

Have your say on how we can continue to improve aged care.

Phone **1800 318 209** (aged care reform free-call phone line) or visit agedcareengagement.health.gov.au

DISABILITY SUPPORT PAYMENTS

Disability Pension

The Disability Support Pension helps people who are unable to work or be retrained for work of at least 15 hours per week due to a permanent physical, intellectual or psychiatric impairment.

To receive the Disability Support Pension, you must:

- Be an Australian resident for at least 10 years (or have a qualifying exemption)
- Be aged at least 15 and 9 months and under the Age Pension age at date of claim
- Have a specific impairment such as being permanently blind; or have an impairment that has been assessed to be at 20 points or more using the Impairment Tables
- Be assessed as having a continuing inability to work 15 hours per week now, or in the next 2 years or be participating in the supported wage system.

You also need to meet the income and asset test thresholds.

For people over 21, the Disability Support Pension is paid at the same rate as the Age Pension.

If you are receiving the Disability Support Pension when you reach Age Pension age, you can choose which payment you will receive.

Contact Centrelink to find out if you are eligible for the Disability Support Pension

Mobility Allowance

A payment to help with travel costs for work, study or looking for work if you have a disability, illness or injury that means you can't use public transport.

Mobility Allowance is \$115.90 per fortnight to help with travel costs for work, study or looking for work if you can't use public transport. You can get it if you do one or more of the following things for at least 32 hours every 4 weeks on a continuing basis:

- Paid work
- Volunteer
- Self-employment
- Vocational training
- Independent living
- Life skills training

If you are doing more than 15 hours of paid work per week or seeking work for 15 hours or more a week through an Employment Services Provider, you may qualify for a higher rate of \$162.00 per fortnight.

OTHER PAYMENTS

Crisis Payment

Crisis Payment is a one-off support payment for people who experienced certain extreme events and are in severe financial hardship. Extreme events include:

- Because of natural or other disaster not covered by a disaster relief payment
- Being forced to leave home due to domestic and family violence, or where the perpetrator has left
- Serving at least 14 days in prison or in psychiatric confinement
- A humanitarian entrant who entered Australia on a certain visa subclass.

To be eligible for the payment you must qualify for an income support pension, benefit or allowance.

The Crisis Payment is equal to seven days (one week) of the maximum basic rate of the person's pension, benefit or allowance.

Special Benefit

Special Benefit is available to people in financial hardship with no other means of supporting themselves or their family because of:

- Age or physical or mental disability
- Domestic circumstances
- Any other reason for which the person has no control

Special Benefit is only available to people who are not entitled to any other income support payment and residency rules apply.

Special Benefit payment is generally equal to the maximum rate of JobSeeker or Youth Allowance (depending on the person's age).

YOUR NOTES

QUALITY AGED CARE

Delivering Quality Aged Care

The Albanese Government is working hard to improve the quality of care for older people and make aged care equitable, sustainable and trusted.

The Royal Commission into Aged Care Quality and Safety made it clear that more needs to be done to improve the standard of care and that is what our government focused on doing.

We are determined to improve the aged care experiences of older people in Australia and ensure they receive high quality, safe care – and we have made great progress already.

The Albanese Government has been engaging with residential aged care homes and meeting with older people and their families and carers, as well as aged care workers and aged care providers, to hear what they think about aged care.

Older people, along with their families and carers, are at the heart of these changes. We are ambitious for aged care and we strongly encourage everyone to have their say.

Together we can make positive, lasting changes to aged care that deliver safety, dignity and respect for older people.

Have your say on how we can continue to improve aged care:

**Please phone the Aged Care Reform free-call phone 1800 318 209
or visit: AgedCareEngagement.health.gov.au**

MY AGED CARE

My Aged Care is the starting point to help you find out what Australian Government funded aged care services may be available to help you.

My Aged Care can provide:

- information on the different types of aged care services available
- an assessment of needs to identify eligibility and the right type of care
- referrals and support to find service providers that can meet your needs
- information on what you might need to pay towards the cost of your care.

You can visit any Services Australia service centre for general My Aged Care support or book an appointment with an Aged Care Specialist Officer in selected locations by calling **1800 227 475, (Monday-Friday, 8am to 5pm).**

For translating and interpreting services (TIS National), call 131 450 and ask to call 1800 200 422.

To use the National Relay Service, visit nrschat.nrscall.gov.au/nrs to choose your preferred access point on their website, or call the NRS Helpdesk on **1800 555 660.**

myagedcare.gov.au

Saturdays: 10am to 2pm
(closed Sunday and public holidays)

Planning for your future

It's never too early or too late to talk about aged care. Talking about getting some extra help doesn't mean you can't live an independent or active life.

My Aged Care can assist you in understanding what kind of care you need:

Eligibility is based on factors like your health, how you're managing at home, and any support you currently receive.

Help at home

If you're finding it harder to do the things you used to, you can ask for some help.

Short-term care

Maybe you need some help after a hospital stay, or support if your regular family carer is taking a holiday. Short-term care can help you cope with life's interruptions.

Aged care homes

You might be at a stage where you no longer feel able to live independently at home, even with carer support or home care services to help you.

Helping you make choices

Star Ratings for aged care homes are available through the 'Find a provider' tool on the My Aged Care website. Star Ratings allows you to compare the quality of aged care homes. Residential aged care homes receive an overall Star Rating as well as ratings against 4 sub-categories: Residents' Experience, Compliance, Staffing and Quality Measures.

Find out more by visiting myagedcare.gov.au/quality-aged-care

Older people, their families and carers can now see **how much aged care services spend on care, food, wages and more**. You can access this information through the 'Find a Provider' tool's new 'finance & operations' tab on My Aged Care. Publishing this information provides greater transparency on what aged care providers spend their money on. Older people and their carers can use this information to compare providers and make an informed choice about which aged care service suits their needs.

Visit: myagedcare.gov.au/find-provider/understanding-costs/understanding-financial-information-find-provider

How to access aged care services

Step 1

Apply for an assessment

You can apply for an assessment of your needs at **myagedcare.gov.au/apply-online**, by phoning **1800 200 422** or in person at a dedicated Services Australia service centre.

- You will be asked questions to help work out your care needs.
- You will need your Medicare card.
- If you would like someone to call My Aged Care for you, you will need to give them your consent.
- If you're calling for someone else, they will need to give their consent.

Step 2

Have an assessment

If you are eligible for aged care, My Aged Care will arrange for a trained assessor to conduct an assessment.

- With your consent they will assess your care needs and eligibility for services. They will then work with you to develop a support plan which addresses your needs, goals and preferences.
- You may like to prepare any questions that you have, for example: what services are available locally? And, how long will I have to wait?
- Someone else can be with you during your assessment.

Step 3

Find out about costs

Most people will need to contribute to their cost of care. My Aged Care and service providers can give you information about how much you may be asked to pay. You may need to complete a financial assessment through Services Australia.

Step 4

Following your assessment

You will receive a letter that will let you know if you are eligible for Government subsidised aged care services and if so, what services you are eligible for.

Step 5

Find a provider

The online Find a provider tool can help you find and compare aged care service providers in your area:

myagedcare.gov.au/find-a-provider

Your assessor and My Aged Care can also help you find a provider(s) in your local area that meet your needs.

COMMONWEALTH HOME SUPPORT PROGRAMME

The Commonwealth Home Support Programme (CHSP) helps you access entry-level support services to live independently and safely at home. CHSP works with you to maintain your independence rather than doing things for you.

Eligibility

Eligibility for this program is based on your support needs and age.

If you're having trouble with everyday tasks and feel that a little support could improve your health and wellbeing, CHSP could be right for you. To be eligible for this program,

- You must be aged 65 or older (50 years or older for Aboriginal and Torres Strait Islander people), or
- 50 years or older (45 years or older for Aboriginal and Torres Strait Islander people), on a low income and, (experiencing) homelessness, or at risk of being homeless

An aged care assessment will determine your eligibility for the CHSP, including specific services.

Assessment for Commonwealth Home Support Programme

You must meet certain requirements to be eligible for an aged care assessment.

My Aged Care will ask you questions to help work out your care needs.

You can check your eligibility for an assessment online at myagedcare.gov.au/am-i-eligible, by phoning 1800 200 422 or in person at a dedicated Services Australia service centre.

Services available through the Commonwealth Home Support Programme

Depending on your needs, support services that you may be eligible for include:

- Meals and food preparation – to help ensure that you continue to eat well.
- Bathing, hygiene and grooming – to help you maintain your personal hygiene and grooming standards.
- Nursing – to help you treat and monitor medical conditions at home.
- Podiatry, physiotherapy and other therapies – to help you maintain movement and mobility.
- Help with impairments or continence – to help manage particular conditions and maximise your independence at home.
- Day/overnight respite – to support you and your carer by giving you both a break for a short period of time.
- Changes to my home – to help increase your ability to move around your home safely and independently.
- Home or garden maintenance – to help you keep your home and garden in a safe condition.
- Cleaning, laundry and other chores – to help you keep your home clean and liveable.
- Aids to stay independent – to help you with mobility, communication, reading and personal care limitations.
- Transport – to get you out and about to appointments and community activities.
- Social outings, group and visitors – to help you remain social and interact with your community.

If your carer is in need of additional support, please contact the Carer Gateway on 1800 422 737.

COMMON QUESTIONS

Who provides the services?

To make sure you can access the help you need at an affordable price, the government subsidises a variety of organisations across Australia. These organisations are called service providers. They deliver care and services to you at a subsidised price.

To find out what services are available near you,
use our Find a provider tool:
myagedcare.gov.au/find-a-provider

How much will it cost me?

If you are eligible, you're expected to contribute to the cost of your care if you can afford to. The cost depends on the type of support and the provider.

Simple services like house cleaning and meals might cost a few dollars. More complex services like renovation work will cost much more.

Each provider sets their own prices. You'll need to talk to them to get exact costs.

You can find CHSP service providers using the Find a provider tool:
myagedcare.gov.au/find-a-provider

Read more about how CHSP service costs work:
myagedcare.gov.au/commonwealth-home-support-programme-costs

How long will it take to get some help at home?

First you will need to be assessed. After that it will depend on the availability of service providers in your area to offer the service you need.

HOME CARE PACKAGES

Home Care Packages (HCP) are one of the ways that you can access affordable care services to get some help at home. They are designed for those with more complex care needs that go beyond what the Commonwealth Home Support Programme can provide.

Home Care Packages can be an option if you need a coordinated approach to the delivery of your help at home - perhaps because you need help with many everyday tasks, or the care you need is more complex or intensive.

What services can I get?

Depending on the level of Home Care Package you receive, you can get assistance with a range of different services:

- Bathing, hygiene and grooming - to help you maintain your personal hygiene and grooming standards.
- Nursing - to help you treat and monitor medical conditions at home.
- Podiatry, physiotherapy and other therapies - to help you maintain movement and mobility.
- Meals and food preparation - to help ensure that you continue to eat well.
- Help with impairments or continence - to help manage particular conditions and maximise your independence at home.
- Cleaning, laundry and other chores - to help you keep your home clean and liveable.
- Home or garden maintenance - to help you keep your home and garden in a safe condition.
- Changes to my home - to help increase your ability to move around your home safely and independently.
- Aids to stay independent - to help you with mobility, communication, reading and personal care limitations.
- Transport - to get you out and about to appointments and community activities.
- Social outings, group and visitors - to help you remain social and interact with your community.

What else could be included?

Home Care Packages are flexible; there may be other care and services that are suited to your needs. Together with your provider, you will need to work out if a care or service that you need:

- is directly linked to your identified care needs and goals
- will improve your health and wellbeing

- is necessary for you to remain living safely and independently in your home
- can be delivered within your Home Care Package budget, and
- would be considered an acceptable use of government funds.

A Home Care Package should not be used for, and does not replace, care and services that can be accessed through other health programs that you might be eligible for. You should continue to access these if and when you need them, through your GP and hospitals.

What services are not included?

There are care and services that you must not use Home Care Package funds for:

- Items that would normally be purchased out of general income
- buying food, except as part of enteral feeding requirements
- payment for permanent accommodation, including assistance with home purchase, mortgage payments or rent
- payment of home care fees
- payment of fees or charges for other types of care funded or jointly funded by the Australian Government
- home modifications or assets that are not related to your care needs
- travel and accommodation for holidays
- cost of entertainment activities, such as club memberships and tickets to sporting events
- gambling activities
- payment for services and items covered by the Medicare Benefits Schedule or the Pharmaceutical Benefits Scheme.

For more information on Home Care Packages inclusions and exclusions, you can read the program manual online:

myagedcare.gov.au/publications/home-care-packages-manual

Am I eligible for these services?

Eligibility is based on your care needs as determined through an assessment, but you must also be:

- an older person who needs coordinated services to help them stay at home, or
- a younger person with a disability, dementia or other care needs not met through other specialist services.

Your financial situation won't affect your eligibility. But you may also need an income assessment through Services Australia to work out exactly how much you may be asked to contribute.

More information is available on the Home Care Package costs and fees page:

myagedcare.gov.au/home-care-package-costs-and-fees

How do Home Care Packages work?

You choose a service provider that is right for you. The government then pays your provider a subsidy to arrange a package of care services to meet your needs. Services are provided by a variety of organisations across Australia.

As everyone's care needs are different, there are four levels of Home Care Packages with different funding amounts. These cover basic support needs through to high care needs.

The package level assigned to you is based on your needs.

Package level	Level of care needs
Level 1	Basic care needs - \$10,588.65 a year
Level 2	Low care needs - \$18,622.30 a year
Level 3	Intermediate care needs - \$40,529.60 a year
Level 4	High care needs - \$61,440.45 a year

You work with your chosen provider to identify your care needs and decide how best to spend your package funding. Your service provider coordinates and can manage your services for you on your behalf.

Home Care Package costs

You're expected to contribute to the cost of your care if you can afford it. Your contribution is made up of three types of fees:

The basic daily fee up to \$13.08 from 20 September 2024

Your provider may ask you to pay a basic daily fee based on your home care package level.

Income tested care fee up to \$37.55 from 20 September 2024

Some people may also have to pay an income tested care fee. Whether you pay it, and how much of it you pay, is determined through a formal income assessment from the Services Australia. If you have to pay this fee, there are annual and lifetime limits on how much you can be asked to pay.

Additional fees

Any other amount you have agreed to pay for extra care and services that wouldn't otherwise be covered by your Home Care Package. You can read more about the fees, caps, and how to use your package funds on our Home Care Package costs and fees page:

myagedcare.gov.au/home-care-package-costs-and-fees

To get an estimate of the fees you may be asked to pay, use our fee estimator: **myagedcare.gov.au/how-much-will-i-pay**

Home Care Packages pricing changes

We have taken significant steps to make sure older people will no longer be charged excessive administrative and management costs as part of their Home Care Package. From 1 January 2023, care management and package management charges were capped at 20 per cent and 15 per cent of the respective package levels. We have banned exit fees, improving provider choice for care recipients, while also stopping providers from charging separate brokerage and subcontracting fees in the program.

How long will it take to get a Home Care Package?

After you have been assessed as being eligible, how long it takes to get a Home Care Package depends on what package level you are eligible for.

How urgently someone needs services can also impact how long it may take to receive a Home Care Package. Those with higher or more urgent needs are prioritised to receive services.

More information is available on the Home Care Package costs and fees page: **myagedcare.gov.au/home-care-package-costs-and-fees**

SUPPORT FOR GRANDPARENT CARERS

Many grandparents care for children through formal or informal care arrangements. Help for grandparent carers depends on your individual circumstances and includes:

- Payments to help with the cost of raising children
- No-cost or low-cost child care
- Health care cards to reduce the cost of medical care and pharmaceuticals

You do not need to have a formal foster care arrangement in place to access Commonwealth Government support. Generally, all that is required is that you are the primary carer for the child and make day-to-day decisions for the child.

Can grandparents access Family Payments?

Yes. Grandparents can access Family Tax Benefit if they care for a child at least 35 per cent of the time. You do not need to be a child's legal guardian to be eligible for social security purposes. Family Tax Benefit is a payment that helps eligible families with the cost of raising children. The Family Tax Benefit residence and income tests apply.

There are two parts to the Family Tax Benefit – Part A and Part B.

FAMILY TAX BENEFIT – PART A

Paid per child, families with a combined income of \$65,189 or less can access the maximum rate of the payment. Age Pensioners, including those on a part-pension, generally receive the maximum rate of Family Tax Benefit Part A.

Family Tax Benefit – Part A

Maximum rate for each child	Fortnight
Under 12	\$222.04
13 to 15	\$288.82
16 to 19 (secondary student or exempt from requirement)	\$288.82
0 – 19 years of age in an approved care organisation	\$71.26

FAMILY TAX BENEFIT - PART B

Family Tax Benefit Part B is a per family payment that provides extra assistance to single parent families, non-parent carers and some couple families with one main income earner. Pensioners and other social security recipients, including part-pensioners, may be eligible for Family Tax Benefit Part B. Single carers automatically receive the maximum rate of Family Tax Benefit Part B provided their income is under the primary earner income limit. For couple families, the payment is also subject to an income test on the lower earner. The payment rate starts to taper off once the secondary income earner earns more than \$6,789 per year.

This means that people who are single and receive the Age Pension or other social security payment will be eligible for the maximum rate. Couple Age Pensioners will usually be eligible for a part-rate of Family Tax Benefit Part B.

Family Tax Benefit Part B is also paid to grandparent and non-parent carers who do not receive social security payments. In these circumstances, Family Tax Benefit Part B is payable when the primary income earner has an income of under \$117,194 or less per year. The payment rate starts to taper off once the secondary income earner earns more than \$6,789 per year. Family Tax Benefit Part B is also payable to grandparents with a youngest child 13 years and older, whereas for other couple families it ceases when the child turns 13.

The payment is paid per family, not per child. Payment rates depend on the age of the youngest child.

There is no assets test for Family Tax Benefit Part B.

Maximum rate of Family Tax Benefit - Part B

Age of youngest child	Fortnight
Under 5 years of age	\$188.86
5 - 15 years of age (must be a full-time secondary student if aged 16-18)	\$131.74

RENT ASSISTANCE (FAMILY TAX BENEFIT)

Do Family Tax Benefit payments give you access to Commonwealth Rent Assistance, if you are paying rent to a landlord or community housing provider?

Yes. Age Pensioners and other social security recipients, including part-pensioners, who receive Family Tax Benefit Part A, are eligible for Rent Assistance (Family Tax Benefit).

Grandparent and non-parent carers who do not receive a social security payment may be eligible for Rent Assistance (Family Tax Benefit) if they qualify for more than the basic rate of Family Tax Benefit Part A. If you are in this situation, contact Centrelink to determine your eligibility

Rent Assistance (Family Tax Benefit) rates

Family Situation	No payment unless fortnightly rent is more than	Maximum payment if fortnightly rent is at least	Maximum payment per fortnight
Single			
One or two children	\$195.58	\$526.54	\$248.22
Three or more children	\$195.58	\$569.48	\$280.42
Couple			
One or two children	\$289.24	\$620.20	\$248.22
Three or more children	\$289.24	\$663.14	\$280.42

OTHER QUESTIONS

Can grandparents access Parenting Payment if they are under the Age Pension age?

If a grandparent is the principal carer of a child under 14 (if single) or under 6 if partnered, they may be eligible to access Parenting Payment.

The Parenting Payment income and asset tests apply.

Can grandparents access Carer Payment if they are under the Age Pension age?

Yes. Grandparent and non-parent carers who are looking after a child with severe disability or a severe medical condition are eligible for Carer Payment.

There are other circumstances where you might be eligible for Carer Payment or Carer Allowance, including if you are an adult with disability looking after a child with a disability. Or if you are looking after more than one child with disability or illness that is not classified as severe.

Carer Payment is paid at the same rate as the Age Pension. Income and assets tests apply.

Can grandparents access Carer Allowance if they are looking after a child with disability or an illness?

Yes. Carer Allowance is automatically payable to grandparents looking after a child whose disability appears on a list of disabilities and conditions, or if the disability/ condition causes the child to function below the standard for his or her age level.

Contact Centrelink to determine your eligibility. The current rates of Carer Allowance per child, are:

- \$153.50 per fortnight
- Up to \$1,000 Child Disability Assistance Payment, paid annually on 1 July for each child being cared for under 16 years of age

Carer Allowance is paid on top of other social security payments.

You do not need to be receiving a social security payment to get Carer Allowance, but an income test of \$250,000 applies to you and your partner. There is no asset test.

Children who are not eligible for Carer Allowance may be eligible for a Health Care Card if they require substantially more care and attention than a child of the same age without disability.

Can grandparents get a Health Care Card to help with the cost of medical appointments and prescription medicine for children they are looking after?

Yes. Grandparent carers can access a Foster Child Health Care Card.

You do not need to be a formal foster carer to be eligible and the card is available to grandparents in both formal and informal care arrangements.

The Foster Child Health Care Card gives children access to cheaper prescription medicines, medical services and other concessions, depending on your state or territory. There is no income or assets test.

Can grandparents get help with the cost of child care?

Yes. Grandparent carers can access 100 hours per fortnight of subsidised child care for a grandchild.

The Additional Child Care Subsidy (Grandparent) is available to carers who receive an income support payment, such as the Age Pension.

Support is available equal to the actual fee charged, up to 120% of the Child Care Subsidy hourly ratecap.

There are no requirements for grandparents to be working or undertaking other activities to be eligible for this child care assistance. There is no time limit on how long you can get the additional subsidy.

For many grandparent carers this means there will be no out-of-pocket cost for child care.

Grandparents who don't receive an income support payment can still access up to 100 hours per fortnight of the Child Care Subsidy without any activity test requirement.

Need to know more?

Every grandparent carer's situation is different.

The Centrelink Grandparent Adviser Line can give you specialist advice relating to your circumstances.

AGED CARE COMPLAINTS

Aged Care Quality and Safety Commission

The Aged Care Quality and Safety Commission makes sure that aged care services provide the best care and services possible and meets the Aged Care Quality Standards. The Commission's information and resources can help you understand the care and services you should receive from your provider. The Commission can also help you to resolve any concerns you might have about aged care services. It does this by:

- checking aged care services to make sure they meet the Aged Care Quality Standards
- looking into complaints about services made by people receiving care, their families and others
- requiring aged care providers to make changes when they are not meeting the Standards or respecting the rights of aged care consumers
- making sure that aged care providers manage your fees and contributions properly, as well as the government funding they receive
- making sure that new organisations that want to provide aged care services are suitable
- investigating serious incidents that happen in aged care services
- publishing information about our findings when we check on services
- explaining what good quality care is, and what you can expect from services.

Food, Nutrition and Dining Hotline

For concerns about food, nutrition or the dining experience at an aged care home, you can call the dedicated Food, Nutrition and Dining Hotline.

The hotline can be reached on 1800 844 044 between 9am and 5pm AEST Monday to Friday.

The Food, Nutrition and Dining Hotline is run by the Aged Care Quality and Safety Commission. The hotline can give people receiving aged care, their families, carers and advocates direct access to a dedicated team to discuss issues about food, nutrition and dining in aged care.

SCAMS AWARENESS

What we are doing to protect you

The Albanese Labor Government has established Australia's first 'National Anti-Scams Centre' within the ACCC. We're developing new industry codes to ensure better protection for consumer and supporting I.D recovery services so victims can get the help they need. We're also partnering across Government and the private sector to make Australia undesirable for scammers and putting them on notice - the Government is fighting back.

TYPE OF INCIDENT	WHERE TO REPORT
Banking	Your Bank
Centrelink, Medicare, Child Support, and myGov related scams	Services Australia Scams and Identity Theft Helpdesk 1800 941 126
Cybercrime	cyber.gov.au/report
Financial and investment scams	asic.gov.au
Fraud and theft	Local police 131 444
Tax related scams	ato.gov.au
Identity theft	www.idcare.org 1800 595 160

Ways to protect yourself

- Stop and think logically about all urgent requests for money or personal information
- Slow down! Take time to consider if it could be a scam
- Seek trusted, independent advice before acting.
- Independently find contract information or online reviews to make sure you're dealing with reputable person or company.
- Be wary of opportunities that appear too good to be true

What to do if you've been scammed

- Immediately contact your financial institution
- Report to the police
- Let people know that you've been scammed (if you are a business - contact customers and industry)
- Call IDCARE on 1800 595 160 if you have released personal identifying information to a scammer
- Report the scam to Scamwatch <https://scamwatch.gov.au/> **where you can also find and download more information in [The Little Black Book of Scams](#)**
